MS 2.5 (WTN 30+)	WS 2.5 (WTN 32+)

For Doubles, the average WTN of the team (average of two players' WTN) should be used to determine the appropriate NTRP level they should register in.

For Mixed Doubles, the WTN guidelines will follow Women Singles Guidelines.

Players are encouraged to opt in to share their WTN with Tennis Canada.

How to opt in:

If you have results in the system but are unable to view your WTN on your tournaments profile page, it is likely because you opted in to not sharing your match results data with the ITF back in 2020. In order to check this please:

1. Visit the tournaments site and log in
2. After you have logged in, click on your name on the top-right and select "Account Settings" from the drop-down menu
3. Scroll down to the "Consent" section
4. If you would like to show your WTN in your profile, make sure it says "Yes."

You should see your WTN appear on your profile within one to two weeks. If it does not appear, please email tournaments@tenniscanada.com.
